MAKE YOUR OWN 6 COLOUR WHEEL

MATERIALS CHECK LIST

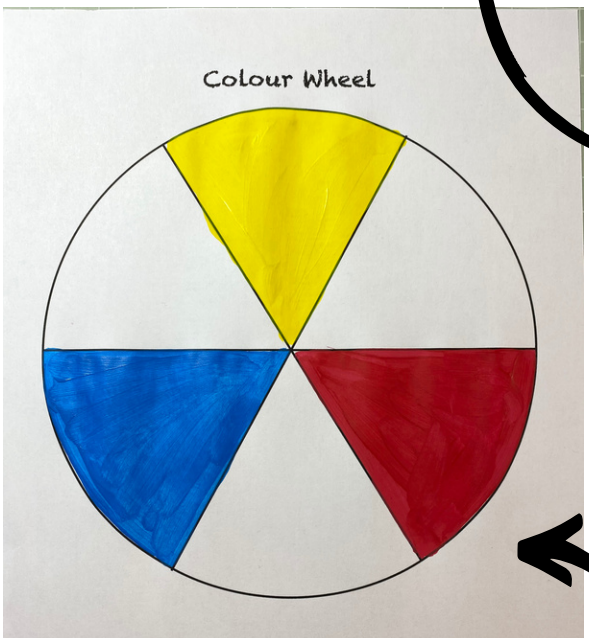
Palette with 6 mixing separations or a paper plate drawn on sections like template.
Colour wheel paper template print or draw your own.
Water container.
3 brushes – can use one brush.
Acrylics or Poster Paints, yellow, red and blue.
Kitchen roll for drying brushes, clean.

PRIMARY COLOURS

Red yellow and blue are primary colours which cannot be mixed or made by any other colour.

SECONDARY COLOURS

Orange green and purple
made by mixing two primary colours together.



START

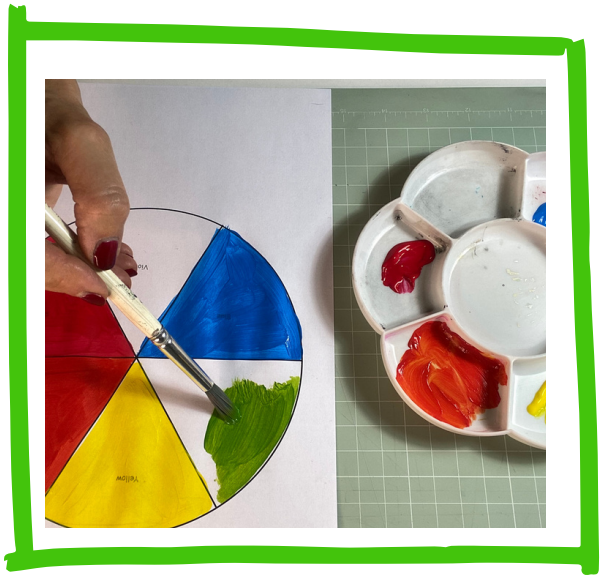
Squeeze out primary colour paints in to the palette at equal distance apart with one space between each.

Start painting all primary colours in each space on the template paper wheel with a space apart.

Waltham Forest

Mixing secondary colours

Mix roughly equal amounts of two primary colours in the empty spaces in-between each primary on the pallet to mix and make a secondary colour.
once mixed, paint each secondary colour in the blank space on the template wheel again in between the two primary colours that made the secoundary colour.



RED + YELLOW
MIX EQUAL AMOUNTS
MAKE ORANGE

YELLOW + BLUE
MIX EQUAL AMOUNTS
MAKE GREEN

BLUE + RED
MIX EQUAL AMOUNTS
MAKE PURPLE

Once you have completed your colour wheel try painting a picture using all the colours you now have.

Also you could try painting a picture just using primary colours and another with just secondary.
