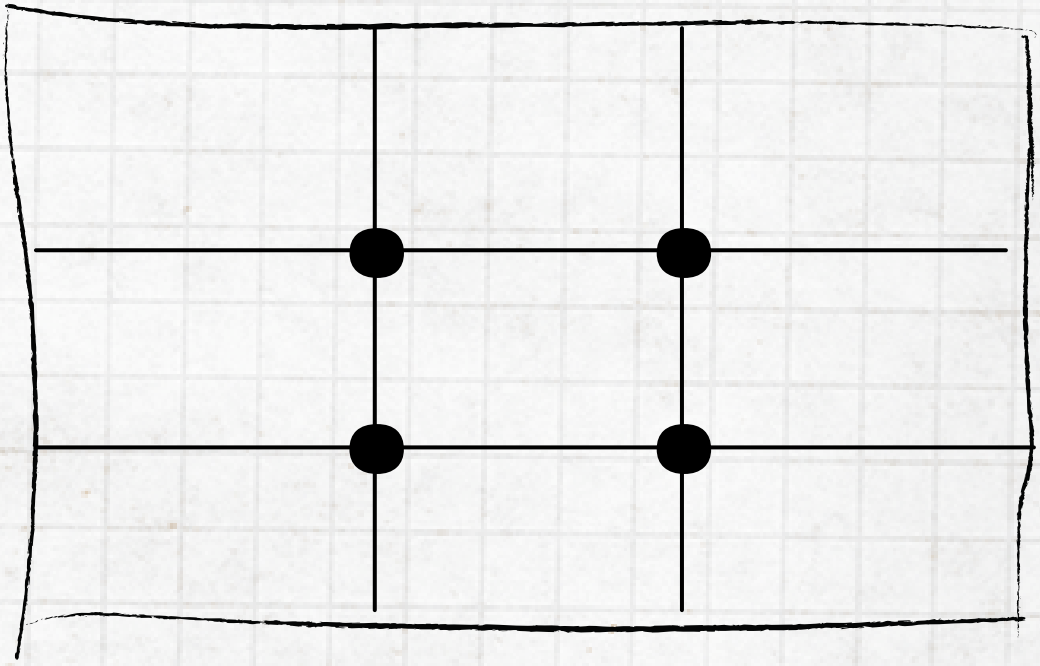
Rule of thirds

Find the Grid setting on your phone.

this

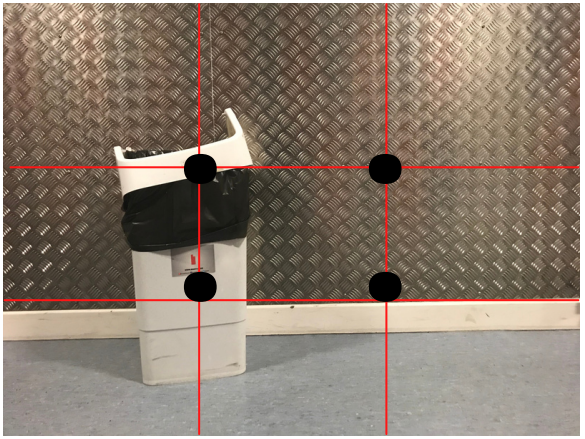
Three-by-three grid
intersect at four points

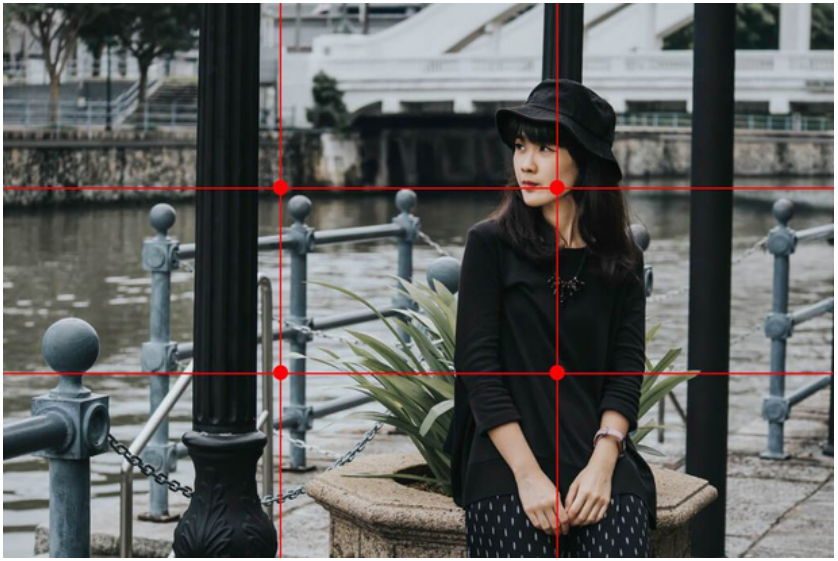
landscape



keep your subject in place at the intersection of those dividing lines, at any point.

Example





Now you try

Write a line

& Take a Pic

Task 1

Photograph something that you own, something that holds a **memory** for you, It could be a piece of clothing or a gift or something found, it could be anything, maybe it connects to a person or an event or perhaps a place. Then **write one sentence** about this memory.

use your Phone camera

Object & Memory

Idea Space

Task 2 Phone Photography: hands

idea space

Take 3 images of hands.
What can we say with just an image of hands?
They sometimes communicate how someone is feeling, if we are relaxed or anxious, we hold our hands in different positions. They can show age and lifestyle, or what type of job we have.

Think about different ways that you can photograph hands and what this shows.
Hands can be shown using skills like playing an instrument or making things. They can show how we care and show affection as we reach out with our hands or they can be used to insult or fight one another.
What can the hands tell us with none verbal communication?.

How do we use hands to communicate?
Can you capture a moment in time by just taking a photograph of hands?
